Bob,

Your e-mail on Wednesday asked if I had completed my review of the above-listed report. The actual title for which was listed as *Draft Sampling and Analysis Plan for Site 2 – Forrestal Landfill, Site 3 – Supplyside Landfill, Long Term Groundwater Monitoring*. It was dated October 2007 and was received on October 26, 2007. The plan was submitted to cover groundwater sampling to be conducted during fiscal year 2008. Additionally, the first round of quarterly sampling has already taken place following the procedures outlined in the submittal. This was agreed upon during our meeting at Naval Station Great Lakes on November 6<sup>th</sup> and 7<sup>th</sup>.

The answer to your question is yes, I have completed my review. I did read through the sampling and analysis plan and did not generate any substantive comments. Therefore, Illinois EPA will not be submitting a formal comment letter. If the Navy would like one to be issued, for whatever reason, one can be generated, but I saw no reason for one to be drafted at the present time. The Navy, or their contractor as the case may be, should continue collecting the required samples according to the plan as it was submitted.

If you have any questions regarding anything in the correspondence or need anything else, please give me a call at (217) 557-8155 or you may contact me via electronic mail at [Brian.Conrath@illinois.gov](mailto:Brian.Conrath@illinois.gov).

Sincerely,

Brian A. Conrath  
Illinois EPA
